The fact that the wheat market had been on the upgrade for four days and that the foreign outlook, although disturbing, was still asserted to be for peace had much to do with the enlarged selling and the lack of any aggressive new demand. Besides, Winnipeg reported greater hedging pressure on account of expected heavier receipts, whereas the outlet for Canadian wheat was further restricted by lake freight rates rising to &c a bushel, the highest charge ever known. In addition, arrivals of wheat at primary points in the United States continued liberal. Showers relieving the drought which of late has retarded the sowing of winter wheat was a further beartsh influence. Besides, Winnipeg reported greater hedging pressure on account of expected heavier receipts, whereas the outlet for Canadian wheat was further restricted by lake freight rates rising to &c a bushel, the highest charge ever known. In addition, arrivals of wheat at primary points in the United States continued liberal. Showers relieving the drought which of late has retarded the sowing of winter wheat was a further bearish influence. On the other hand, domestic milling call for wheat was said to have improved in many sections and exporters at the Guif of Mexico were bidding ic higher on wheat in position to be shipped without delay. Sugar and Coffee

Raw Sugar Futures—The raw sugar futures market was easier to-day on renewed selling by commission houses and trade interests, owing to the more liberal offerings in the spot market and the poor demand for refined. December was the most active position and showed the maximum deline which at one time was a matter of 13 points, while other positions were off 10 points, but there was a slight rally near the close, with final prices 5 to 10 points net lower.
